* Plan B and C (Equities/CFD) are limited to some platforms according to customer trading volume, remaining balance and a trading type/model. Fix plans might change instantaneously at the company's sole discretion upon notification to the customer of the relevant changes prior to the subsequent opening trading hour session of the market.

** Plan D is only applicable to accounts managed by a Trading Agent or clients referred by an Introducing Broker/Referring Broker. By being under Plan D you acknowledge and agree that your Trading Agent or Introducing Broker/Referring Broker may receive a portion of the trading commission charged in your account. All details will be disclosed upon request.

*** ECN, TAF and SEC fees apply for Equities accounts and routing fees apply for CFDs on Equities traders.

Options plan:

\$2-per-option

Additional commission on 1st contract – \$3

Note: Fees and prices may change at any time and according to the type of platform or product (CFDs or Equities).

Financing fee:

Overnight daily margin interest of 0.026% apply on client's opened trade (over 1:1, Buying Power > Equity).

Overnight daily margin interest of 0.5% apply for unauthorized balances over 1:2 on client's open trades.

ECN, TAF and SEC fees:

The Company has no control over ECN, TAF and SEC fees rates and these may change at any time without prior notice to the Company. The Company will notify the Trader immediately after receiving notice of changes in ECN, TAF and SEC fees by Email or other electronic means. For all types of Financial Instruments that the company offers, the commission, financing fee, ECN, TAF and SEC fees are not incorporated into the Company's quoted price and are charged extra and deducted from the client's account.

FINRA Trading Activity Fee (TAF Fee) rate for sales of covered equity securities is \$0.000119 per share, with corresponding per transaction cap for covered equity securities of \$5.95 for more than 50000 shares.

Nasdaq OMX Market Data Fee of \$15.1 (NYSE/AMEX \$2.4, NAS \$1.2, NAS Level II \$11.5) is charged on a monthly basis.

Deposits and withdrawals not made in US Dollars will be exchanged to/from US dollars according to bank check exchange rates. When the client withdraws funds, it is the Company's standard practice to send the money back to the client in the same currency the money was originally deposited.

SEC fees information can be reviewed at the following link <http://www.sec.gov/>

Nasdaq OMX fees can be reviewed at the following link <http://www.nasdaqtrader.com/Trader.aspx?id=DPUSData>

The following are the Equity ECNs' and Market Makers' routes and respective fees. The price of the fees is a mere indication and subject to changes by the route provider without prior notice to the Company.

Forex Trading Online for Colmex Pro MT4 Users

Competitive Pricing and spreads

Colmex Pro is proud to offer competitive spreads on all currency pairs. On the major pairs as the EUR/USD, GBP/USD and USD/JPY, spreads start at 0.3pips.

Forex Trading Times

Forex trading online is available 24 hours a day, 5 days a week allowing traders access during all market trading times, starting at 22:00 Sunday and closing at 21:00 Friday (GMT).

* For USD/RUB pair, the trading hours are from Monday – Friday from 7:30 -22:00GMT

**For USD/ILS pair, the trading hours are from Monday – Friday from 7:00 -22:00CET

Order Sizes

Colmex Pro can execute any order size starting from 0.01 lots or the equivalent of 1000 of the base currency with no maximum order size.

Order Types

Traders can execute a number of orders with Colmex Pro, including:

Instant execution	Buy limit	Sell limit	Buy stop
Sell stop	Take profit	Stop loss	Good till cancelled

Swap/Rollover

If a trade is kept open overnight, then there is a swap/rollover fee/income calculated on that position. The cost or income is calculated as the overnight interest rate differential between the two currencies on which the position is held, depending on the type of the position (long/short).

It is important to remember that one can gain or lose on swap and as such, one has either positive rollover or negative rollover. There is a possibility that some instruments may have negative rollover values on both sides therefore, the positive and negative values are decreased accordingly.

In the trading terminal 'swap' is automatically converted into the balance currency. Operation is conducted between 20:30 – 00:00 GMT. From Friday to Monday swap is charged once. From Wednesday to Thursday swap is charged at triple rate.

* The above spreads are applicable under normal trading conditions and excludes the commission plan charged in USD or in Pips. Colmex Pro has the right to amend the above spreads according to market conditions as per 'Terms and Conditions'.

** Minimum level for placing SL and TP as well as Stop and Limit Orders from a current market price.

***The commission fee per 1 lot for all the above financial products is calculated per side. The account holder has the possibility to pay fully or partially the commission in USD or pips.

****ATP plan is only applicable to accounts managed by a Trading Agent or accounts connected to third party automatic trading technology provider. By being under ATP plan you acknowledge and agree that your Trading Agent or third party automatic trading technology provider may receive a portion of the trading commission charged in your account and the plan may not be and/or remain compatible with the company's electronic trading system or any third party system that the company uses to connect its system to the trading agent plan. ATP plan refers to FX currency pair only. All details will be disclosed upon request.

Spot Metals Trading on Gold, Silver and CFD future on Crude oil for Colmex Pro MT4 users

Colmex Pro offers CFDs on spot gold and silver as an ideal solution for both long and short-term speculation or as an investment alternative.

Spot Metals Trading Times

Spot Metals trading online opens at 22:05 Sunday and closes at 20:00 Friday (GMT).

Pricing

Prices for both gold and silver are currently quoted in USD. With a required margin of 2%, trades can be leveraged up to 1:50, allowing maximum trading flexibility.

Spreads

The typical spread on spot gold is at \$0.50 per ounce and \$0.05 per ounce on spot silver, which are some of the most competitive in the market. A trader can go both long and short on any of the two metals.

Order Sizes

The minimum trade size is 1 ounce of gold and 50 ounces of silver.

Order Types

Traders can execute a number of orders with Colmex Pro, including:

Instant execution	Buy limit	Sell limit	Buy stop
Sell stop	Take profit	Stop loss	Good till cancelled

Swap/Rollover

If a trade is kept open overnight, then there is a swap/rollover fee calculated on that position. The cost is calculated as the overnight interest rate differential. The Company reserves the right to change the swap value applicable to the Financial Instruments. The client can check in the Company's platform the swap rate of the financial instrument before placing any order.

In the trading terminal 'swap' is automatically converted into the balance currency. Operation is conducted between 20:30 – 00:00 GMT. From Friday to Monday swap is charged once. From Wednesday to Thursday swap is charged at triple rate.

- Swap or Rollover is the interest added or deducted.
- Minimum level for placing SL and TP as well as Stop and Limit Orders from a current market price.
- The above spreads are applicable under normal trading conditions. Colmex Pro has the right to amend the above spreads according to market conditions as per the 'Terms and Conditions'.

CFD Futures for Colmex Pro MT4 users

Key Benefits of Trading CFDs on Futures with Colmex Pro: Clients are able to place long or short orders. Get exposure to major equity indices with a fraction of the required exchange margin. Availability to trade on crude oil, natural gas and agricultural commodities futures – all within the same trading account.

Our clients can gain access to the major indices as well as major commodity and energy futures through CFDs offered by Colmex Pro.

Pricing

Colmex Pro provides prices on its CFDs that closely track the real prices of the futures contracts traded on the exchanges and prices are quoted in the underlying currency of the future contract. Colmex Pro requires a smaller deposited margin than that of the exchange. Note: your leverage in CFD Futures defined as a quarter of your FX leverage.

*Colmex Pro index trading hours are based on when their underlying reference markets are open. Colmex Pro indices will not be open for trading during holidays in which the reference markets are closed.

**Margin requirement/Leverage/Buying Power might differ in accordance with the residency of a client.

Order Sizes

Order sizes depend on the individual underlying futures contract, details of which are provided below and start at 1 lots on each futures contract.

Order Types

Traders can execute a number of orders with Colmex Pro, including:

Instant execution	Buy limit	Sell limit	Buy stop
Sell stop	Take profit	Stop loss	Good till cancelled

Swap/Rollover

CFD futures for Colmex Pro MT4 users: there is no overnight swap charges but some CFD future contracts in the table above, has expiry date. Expiration of CFDs occurs on specific date and specific time. The expiration date can be seen on MT4 trading platform before initiating a trade, the expiration time is usually the end of trading session on the expiry date.

The Client is expected to close all open CFD future contracts prior to the contract expiration, otherwise the company will reserve the right to rollover automatically the transaction for a new CFD future contract, with new expiration date on the next opening trading session date. In this case, the old CFD future contract will be deemed as closed at the price of the end of the expiry date and new CFD Future Contract considered opened at the price of the next opening trading session date. The client is not the position to have profit or loss due to a price difference between the old and the new contracts, therefore the company will debit or credit the clients account with the difference inquired in price between CFD Futures Contract after the rollover initiated.

CFD Futures Contract Details

Please note that there is a floating spread for trading in CFDs on futures which is not listed.

** Minimum level for placing SL and TP as well as Stop and Limit Orders from a current market price.
